A unique approach to blended learning. Edhesive offers a complete curriculum taught online by a master AP Computer Science teacher, along with training for a member of your local staff—who needs no computer science experience—to guide and support students through the program.

Benefits of Edhesive:

- A proven method: Students who completed our course scored an average of 3.3 on the AP* Computer Science exam (3.0 and above is passing). That's 12% above the national average of 2.95.
- A course offering that does not require a full course-load for your teachers: No lesson planning or grading is necessary.
- No computer science experience is needed from your local staff.

How it works. We support you every step of the way.

Coaching
Teachers don’t need to be computer science experts, but they do need to know how to motivate and support students.

Training
Our easy-to-use, online professional development course and forum help coaches support students.

Curriculum
We provide course materials, along with resources for your coach, meaning no lesson planning or grading is necessary.

In-person support
Coaches provide a personal touch for students, monitoring their progress, getting answers to their questions and providing encouragement.

*This course has been authorized by the College Board to use the AP designation. AP is a registered trademark of the College Board.
What’s included? Get everything you need to offer our course at your school.

Course materials
Our curriculum, featuring a master instructor, includes video- and text-based lessons, as well as online assessments and labs.

Student support
Students interact with peers, the course instructor and teaching assistants in a moderated, online forum.

Coach support
Coaches receive tools for tracking student progress, supplemental materials, ongoing training and support, and access to an online forum designed just for them.

Prepare your students for the 21st-century economy. Bridge one of the most critical learning gaps in K-12 education today.

In the US, computing jobs are growing at a rate 2 times faster than the national average.
